

LABORATORY MIXER AS-10 FOR CONCRETE MIXTURES

The laboratory mixer is designed for the preparation concrete mixtures to production of concrete samples. The mixer allows for good mixing into the volume of the 13l mixture.

Mixing vessel and blades are designed to ensure good mixing in the shortest time. Damage of the blades or the vessel is eliminated due to floating attachment of the blades. The mixer is greatly functional even when the blades are wear out. The design of the mixer allows easy access to cleaning and ensure replacement of wear parts. We can supply a mixer with regulation of revolution and 3x400 V or 230 V.

Technical data:		AS-10
Volume of the mixture		To 13 l.
Mixing time		15- 60 sec.
Dimensions	A x B x H	600 x 800 x 1050 mm
Voltage		3 x 400 V, or 230 V / 50 Hz
Weight		60 kg.
Input power		0,55 kW
