

## WATER STORAGE OF CONCRETE WITH REGULATION VUB- 400

**Device is suitable for storage about 72 blocks size 150 mm. Part of the regulation is the RCD.**

Base of controlled vessel is double plastic tub with a lid and a reinforced base. Temperature control panel is located on the holder above the upper edge of the container. The heating is performed by the heating cable, in the bottom of the vessel is a temperature sensor. Heating and temperature sensor are covered by a plastic grid. For easier draining the water is at the bottom of vessel the drain cock.

Technical data:	VUB - 400 with regulation
Outside dimensions h x w x d	820 x 1 030 x 1400 mm
Inside dimensions h x w x d	500 x 720 x 1 100 mm
Accuracy	± 0,5 °C
Mass	50 kg
Input power	500 W
Voltage	230 V / 50 Hz

Option: water pump for circulation of water.
